

## Discretionary Outreach Funding Guidelines

Discretionary outreach funding constitutes the use of funds for a project without commitment to continued funding of these projects.

Discretionary outreach funds may be used for but not limited to the following:

- Charitable organizations that need assistance getting started, continuing or expanding.
- Charitable organizations in which the Chapel of the Cross acts in collaboration with other funding groups
- Charitable groups with emergency needs.

In recommending the allocations of discretionary outreach funds, the Outreach Ministry Committee will respond to needs at the local, regional and national levels.

Funds must be granted to an organization outside the Chapel of the Cross and not an individual.
